National Marina Insurance Association

FOR INDEPENDENT MARINA OWNERS

Marina insurance is changing. Be part of it.

Four steps to take back control of how we insure our marinas.

National Marina Insurance Association

How it works

How marinas take control of their insurance.

1

Gather the data WE'RE HERE

Real numbers show what marinas really pay.

Owners share info on their perils, pricing and coverage. It takes about 2 minutes.

2

Join the association WINTER 2026–27

Collaborate on an issue we all face.

Independent marina owners join National Marina Insurance Association — the catalyst for better insurance for us all.

3

Shop as a group SPRING 2027

One big group can mean better pricing.

We pool our policies and shop the wholesale insurance market as one group, with a stronger voice than any single marina has alone.

4

Move to a group captive GOAL: 2028

Marinas own the company that insures them.

We aim to move to a member-owned insurance company, where members share in the results.

Step 1 is open now.

Scan to tell us about your marina coverage. It shapes what we're building.

This describes a proposed program for discussion. It is not an offer of insurance, a quote or a binder. Timing is a goal. Plans and structure may change, and membership is subject to underwriting approval.
